

Trimble Access 2019 – Klikk symbolet for lag

The screenshot displays the Trimble Access 2019 software interface. At the top, a status bar shows the time (10:58) and date (26/06), along with various system icons including a globe, power symbols, a satellite icon with the number 14, and antenna icons with the value 2.000. The RTK status is indicated as H:0.010m V:0.015m with a green checkmark.

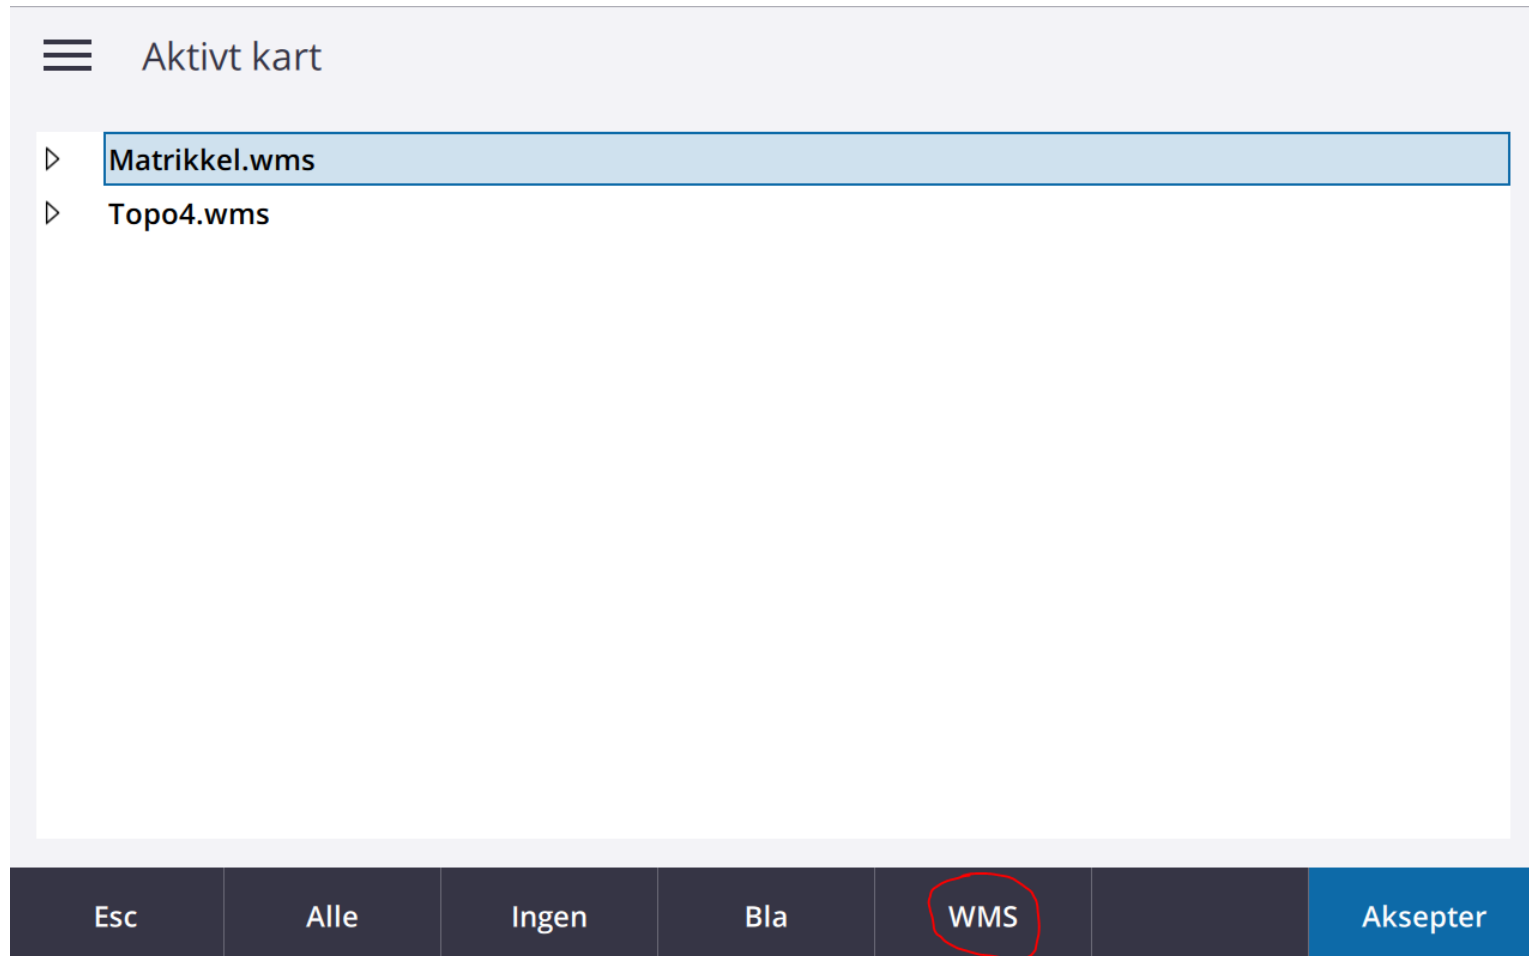

The main interface features a central map area with a green crosshair and a north arrow. A vertical toolbar on the left contains several icons, with the 'Lag' (Layers) icon at the bottom highlighted by a red circle. A vertical toolbar on the right contains various measurement and editing tools.

The 'Måle punkter' (Measure points) menu is open, showing the following fields:

- Punktnavn: p1
- Kode: ?
- Metode: Hurtig punkt
- Antennehøyde(Ukorrigeret): 2.000m
- Målt til: Undersiden av hurtig feste

At the bottom of the screen, a dark navigation bar contains the following buttons: Esc, eBubble, Valg, and Mål.
